

## Oldham County Marriage Records 1824 – 1964

This index is a transcription of an often difficult to read handwritten index. As such, this document contains not only the errors of the handwritten index, but also the errors of the current transcribers. Any question regarding the validity of the information contained may be resolved by viewing the original record at or obtaining a copy of the original record from the Oldham County Clerk's Office, 100 West Jefferson, LaGrange, Kentucky, 40031.

The index is an alphabetical listing of the brides' and grooms' names, the date of marriage or date of license, the book and page number of the original record, and comments. Not all, but a majority of the original records contain additional information such as, age, parents, place of birth, race, and residence of the bride and groom.

There are several Afro-American, "colored", marriages included in this index, but the majority of Afro-American marriages are contained in a separate set of books that are also available at the Oldham County Clerk's Office
